# Benefits Of Toll-Free For Your Business

#TimeToDoBig

- Gives your customers a constant number to reach you across the country even if you move your location across the country.

- By providing single number across the country you'll gain a competitive advantage .

- Having a toll-free number makes your small business feel established,
- Indicates that you're serious about servicing customers outside of your local area.
- Can enhance the trust customers feel over a competitor that only has a local number

- Increase brand value to the customer.

## Variant 1: TFN [Toll Free services]

# 1800 SCP XXXX

- Caller does not pay for the call
- Receiver pays for all call charges
- Accessible across locations and operators
- Number length 11 Digits
  - 1800 : Service definition
  - SCP : Service provider number given by dot
  - XXXX : Customer number choice

## Variant 2: UAN [Universal Access Number]

# 1860 SCP XXXX

- Caller pays for local call
- Receiver pays for call charges
- Accessible across locations and operators
- Number length 11 Digits
  - 1860 : Service definition
  - SCP : Service provider number given by Dot
  - XXXX : Customer number choice
